### Domestic Resorts

Casino revenue for the first quarter of 2017 increased 50% compared to the prior year quarter, due primarily to the acquisition of Borgata Hotel Casino and Spa ("Borgata"), the MGM National Harbor opening on December 8, 2016, and an increase in both

table games and slots revenue. Casino revenue increased 4% on a same-store basis compared to the prior year quarter. Table games revenues increased 7% on a same-store basis and slots revenue increased 2% on a same-store basis compared to the prior year quarter.

The following table shows key gaming statistics for the Company's Las Vegas Strip resorts:

<b>Three months ended March 31,</b>	<b>2017</b>	<b>2016</b>
	<i>(Dollars in millions)</i>	
Table Games Drop	\$ 993	\$ 972
Table Games Win %	25.2 %	23.7 %
Slot Handle	\$ 3,003	\$ 3,001
Slot Hold %	8.6 %	8.4 %

Domestic resorts rooms revenue increased 15% compared to the prior year quarter. On a same-store basis, rooms revenue increased 8% compared to the prior year quarter. Las Vegas Strip REVPAR increased 8.6%.

The following table shows key hotel statistics for the Company's Las Vegas Strip resorts:

<b>Three months ended March 31,</b>	<b>2017</b>	<b>2016</b>
Occupancy %	91 %	91 %
Average Daily Rate (ADR)	\$ 176	\$ 162
Revenue per Available Room (REVPAR)	\$ 161	\$ 148

Operating income at the Company's domestic resorts was \$477 million for the first quarter of 2017 compared to \$365 million in the prior year quarter. Domestic resorts Adjusted Property EBITDA increased 34% to \$648 million in the first quarter of 2017 and was positively impacted by \$59 million of Adjusted Property EBITDA from Borgata and \$32 million of Adjusted Property EBITDA from MGM National Harbor. Same-store Adjusted Property EBITDA increased 15% compared to the prior year quarter.

Mr. Murren added, "The Company's high operating efficiencies, a robust event calendar, and modestly favorable table games hold helped drive a very strong first quarter in Las Vegas contributing to 33% Adjusted Property EBITDA margins at our Strip resorts. As we look to the second quarter, our underlying business remains strong, although we face a challenging comparison due to the Easter holiday shifting back into April as well as favorable second quarter 2016 table games hold. Based on these factors, we anticipate gaming revenues to be lower and our non-gaming revenues to be up year over year. We expect to grow Strip REVPAR by 1.5% to 2.5%. Despite the difficult table games hold comparison, we believe our Adjusted Property EBITDA margins will remain essentially flat at our Las Vegas Strip resorts, compared to the prior year quarter."

### **Corporate Expense**

Corporate expense was \$73 million in the first quarter of 2017, an increase of \$2 million compared to the prior year quarter. The current year quarter included \$2 million related to MGM Growth Properties LLC ("MGP") and \$3 million in additional stock compensation costs. The prior year quarter included costs incurred to implement initiatives related to the Profit Growth Plan and costs associated with the initial public offering of MGP totaling \$14 million.

### **MGM China**

Key first quarter results for MGM China include:

- Net revenues of \$502 million, a 7% increase compared to the prior year quarter;
- Main floor table games revenue increased 17% due to an increase in hold percentage to 22.2% in the current year quarter, from 18.0% in the prior year quarter;
- VIP table games revenue decreased 5% due to a 16% decrease in turnover partially offset by an increase in hold percentage to 3.4% in the current year quarter, from 3.0% in the prior year quarter;
- Operating income was \$73 million compared to \$47 million in the prior year quarter;
- Adjusted EBITDA increased 25% to \$143 million, compared to \$114 million in the prior year quarter, including \$9 million of license fee expense in the current year quarter and \$8 million in the prior year quarter; and
- Operating margin was 14.6% in the current year quarter, and Adjusted EBITDA margin was 28.5%, an increase of 413 basis points compared to the prior year quarter.

### **Unconsolidated Affiliates**

The following table summarizes information related to the Company's share of income from unconsolidated affiliates:

<b>Three months ended March 31,</b>	<b>2017</b>	<b>2016</b>
-------------------------------------	-------------	-------------

CityCenter	\$ 37,319	(9,149)
Borgata	—	19,550
Other	2,384	4,301
	<u>\$ 39,703</u>	<u>\$ 14,702</u>

Our share of CityCenter Holdings, LLC ("CityCenter") operating results for the first quarter of 2017, including certain basis difference adjustments, was \$37 million. Our share of CityCenter's operating income in the prior year quarter was negatively impacted by \$31 million due to accelerated depreciation associated with the April 2016 closure of the Zarkana theatre and \$9 million due to a charge related to the sale of Crystals.

Key first quarter results for CityCenter include the following (see schedules accompanying this release for further detail on CityCenter's first quarter results):

- Net revenues from resort operations were \$326 million, an 8% increase compared to the prior year quarter, due primarily to an increase in casino, rooms, and food and beverage revenues partially offset by a decrease in entertainment revenue as the Zarkana show closed on April 30, 2016;
- Operating income from resorts operations was \$58 million, compared to an operating loss of \$27 million in the prior year quarter which included \$61 million of accelerated depreciation related to the Zarkana theatre and an \$18 million charge associated with the Crystals sale;
- Adjusted EBITDA from resort operations was \$112 million, a 22% increase compared to the prior year quarter;
- Aria's table games volume decreased 5% and table games hold percentage was 25.6%, compared to 23.8% in the prior year quarter;
- REVPAR at Aria increased 9.1% compared to the prior year quarter to \$251; and
- Vdara reported REVPAR of \$202 in the current year quarter, and Adjusted EBITDA increased 22% to \$11 million compared to the prior year quarter.

On August 1, 2016 the Company completed the previously announced acquisition of Boyd Gaming Corporation's interest in Borgata, at which time the entity operating Borgata became a consolidated subsidiary of the Company and the real estate assets associated with Borgata were contributed to MGP. Prior to the acquisition, the Company held a 50% interest in Borgata, which was accounted for under the equity method.

#### **MGM Growth Properties**

During the first quarter of 2017, MGP recorded rent income of \$163 million and MGM Growth Properties Operating Partnership LP (the "Operating Partnership") paid distributions of \$72 million to the Company. On March 15, 2017, MGP's Board of Directors declared a quarterly dividend of \$0.3875 per Class A share totaling \$22 million, which was paid on April 13, 2017 to holders of record on March 31, 2017. The Company concurrently received a \$72 million distribution attributable to its ownership of Operating Partnership units.

#### **MGM Resorts Dividend**

The Company's Board of Directors approved a quarterly dividend on April 26, 2017. The dividend of \$0.11 per share will be payable on June 15, 2017 to stockholders of record at the close of business on June 9, 2017, and will equate to approximately \$63 million in aggregate.

#### **Financial Position**

The Company's cash balance at March 31, 2017 was \$1.4 billion, which included \$465 million at MGM China and \$368 million at MGP. At March 31, 2017, the Company had \$13.2 billion of principal amount of indebtedness outstanding, including \$297 million outstanding under its \$1.5 billion senior secured credit facility, \$2.1 billion outstanding under the \$2.7 billion Operating Partnership senior credit facility, \$2.0 billion outstanding under the \$3.0 billion MGM China credit facility, and \$450 million outstanding under the \$525 million MGM National Harbor credit facility.

"Our commitment to enhancing our financial position continues into 2017 as evidenced by the \$300 million distribution from CityCenter and further deleveraging of the MGM Resorts balance sheet," said Dan D'Arrigo, Executive Vice President and Chief Financial Officer of MGM Resorts. "We continue to focus on maximizing our cash flows and improving our capital structure, while supporting a disciplined approach to capital allocation and ultimately returning MGM Resorts to investment grade."

1 REVPAR is hotel revenue per available room.

2 "Adjusted EBITDA" is earnings before interest and other non-operating income (expense), taxes, depreciation and amortization, preopening and start-up expenses, goodwill impairment charges, and property transactions, net. "Adjusted Property EBITDA" is Adjusted EBITDA before corporate expense and stock compensation expense related to the MGM Resorts and MGP stock compensation plans, which are not allocated to each property. MGM China recognizes stock compensation expense related to its stock compensation plan which is included in the calculation of Adjusted EBITDA for MGM China. "Same-store Adjusted Property EBITDA" is Adjusted Property EBITDA related to operating resorts which were consolidated by the Company for both the entire current and prior year periods presented. Adjusted EBITDA information is presented solely as a supplemental disclosure to reported GAAP measures because management believes these measures are 1) widely used measures of operating performance in the gaming industry, and 2) a principal basis for valuation of gaming companies.

Management believes that while items excluded from Adjusted EBITDA, Adjusted Property EBITDA, and Same-store Adjusted Property EBITDA may be recurring in nature and should not be disregarded in evaluation of the Company's earnings performance, it is useful to exclude such items when analyzing current results and trends compared to other periods because these items can vary significantly depending on specific underlying transactions or events that may not be comparable between the periods being presented. Also, management believes excluded items may not relate specifically to current operating trends or be indicative of future results. For example, preopening and start-up expenses will be significantly different in periods when the Company is developing and constructing a major expansion project and will depend on where the current period lies within the development cycle, as well as the size and scope of the project(s). Property transactions, net includes normal recurring disposals, gains and losses on sales of assets related to specific assets within the Company's resorts, but also includes gains or losses on sales of an entire operating resort or a group of resorts and impairment charges on entire asset groups or investments in unconsolidated affiliates, which may not be comparable period over period.

In addition, capital allocation, tax planning, financing and stock compensation awards are all managed at the corporate level. Therefore, management uses Adjusted Property EBITDA and Same-store Adjusted Property EBITDA as the primary measure of the Company's operating resorts' performance.

Adjusted EBITDA, Adjusted Property EBITDA and Same-store Adjusted Property EBITDA should not be construed as alternatives to operating income or net income, as indicators of our performance; or as alternatives to cash flows from operating activities, as measures of liquidity; or as any other measure determined in accordance with generally accepted accounting principles. We have significant uses of cash flows, including capital expenditures, interest payments, taxes and debt principal repayments, which are not reflected in Adjusted EBITDA, Adjusted Property EBITDA or Same-store Adjusted Property EBITDA. Also, other companies in the gaming and hospitality industries that report Adjusted EBITDA, Adjusted Property EBITDA or Same-store Adjusted Property EBITDA information may calculate Adjusted EBITDA, Adjusted Property EBITDA or Same-store Adjusted Property EBITDA in a different manner.

Reconciliations of GAAP net income (loss) to Adjusted EBITDA and GAAP operating income (loss) to Adjusted Property EBITDA and Same-store Adjusted Property EBITDA are included in the financial schedules in this release.

The Company does not provide reconciliations of Adjusted EBITDA, Adjusted Property EBITDA or Same-store Adjusted Property EBITDA to net income on a forward-looking basis because the Company is unable to forecast the amount or significance of certain items required to develop meaningful comparable GAAP financial measures without unreasonable efforts. These items include gains or losses on sale or consolidation transactions, accelerated depreciation, impairment charges, gains or losses on retirement of debt and variations in effective tax rate, which are difficult to predict and estimate and are primarily dependent on future events, but which are excluded from the Company's calculations of Adjusted EBITDA, Adjusted Property EBITDA and Same-store Adjusted Property EBITDA.
